**NATIONAL AND INTERNATIONAL TENDER WITH REQUIREMENT
OF MINIMUM CAPACITY N°607/E**

1. Subject: Acquisition of an IP platform for broadcasting television and radio programs over the internet.

2. Type of tender: Open national and international tender with requirement of minimum capacity.

3. Minimum Eligibility Requirements: This national and international open tender with minimum capacity requirements is open to tenderers who meet the following conditions:

A - Tenderers applying individually :

First condition : Must have at least one of the following activities :

- Manufacturer of transmission and/or broadcasting and/or distribution equipment via the internet (or via satellite) and/or OTT or IPTV solutions, duly justified by the status and electronic commercial register or K-bis extract (or equivalent document).
- Integrator of transmission and/or broadcasting and/or distribution solutions via the internet (or via satellite) and/or OTT or IPTV solutions, duly justified by the status and electronic commercial register or K-bis extract (or equivalent document).

Second condition :

- Have completed a similar project during the last five (05) years; a similar project is understood to mean the implementation of one (01) OTT platform and/or one (01) IPTV platform, justified by certificate(s) of satisfactory completion issued by the clients, indicating the year of completion.

Third condition :

- Have achieved an average turnover during the last five (05) years of at least 50% of its financial offer.

Any offer that does not meet all of these requirements will be rejected.

B - Tenderers formed as a group :

- Tenderers submitting as a temporary group must do so as a joint and several group.
- One of the group members, usually the majority shareholder, must be designated in the subscription declaration and the bid letter as the lead partner representing all members before the contracting authority.
- The grouping must be formalized through a partnership agreement signed by all members, defining the functioning procedures and percentage share distribution for delivering the goods and services covered by this tender document.

The grouping must, as a whole, meet the following requirements :

First requirement : Must have at least one of the following activities :

- Manufacturer of transmission and/or broadcasting and/or distribution equipment via the internet (or via satellite) and/or OTT or IPTV solutions, duly justified by the status and electronic commercial register or K-bis extract (or equivalent document).
- Integrator of transmission and/or broadcasting and/or distribution solutions via the internet (or via satellite) and/or OTT or IPTV solutions, duly justified by the status and electronic commercial register or K-bis extract (or equivalent document).

Second requirement :

- At least one member of the consortium must have completed a similar project during the last five (05) years; a similar project is understood to mean the implementation of one (01) OTT platform and/or one (01) IPTV platform, justified by a certificate(s) of satisfactory completion issued by the clients, **indicating the year of completion.**

Third requirement :

- The grouping as a whole must have achieved an average turnover during the last five (05) years of at least 50% of its financial offer.

The average turnover of the grouping is calculated on the basis of the sum of the average turnovers of the members constituting the grouping.

The average turnover does not take into consideration the financial statements of newly created members of the grouping having less than one (01) financial year of operation.

Bidders who have submitted a bid within the framework of a grouping of companies must participate in the form of a joint and several grouping.

Any offer that does not meet all of these requirements will be rejected.
